HOPE AGAINST HUNGER

Hunger is a GLOBAL issue, where one billion people around the world do not have enough to eat. Families rely on their neighborhood food pantry for basic food needs where they face a formidable challenge in carrying all their food supplies home. Reusable tote bags help these food pantry patrons carry their food supplies easily and in a more dignified way while also reducing the pollution potential of single-use plastic bags.

The goal of this program is to create personalized works of art whose images will be showcased on donated reusable tote bags requested by community food pantries.

You are the host of your own event! We help you streamline the planning process by sending you, or to each participant's home, all materials and setup instructions necessary for a successful event.

Materials include:

- Canvas (approximately 8" x 8")
- Colored Pencils
- Mini Easel
- … and more!

Each canvas displays a pre-printed outline of HOPE, leaving participants to use their imagination and creativity to design a colorful and decorative work of art. Upon completion of the program, participants take a photo of their completed artwork and scan to us in order to transpose the image onto a reusable tote bag (as shown to the right). These decorated bags are sent to a benefitting food pantry to be distributed to its patrons helping them tackle the challenge of carrying family quantities of food products home with them.

Utilizing our wide network of beneficiary contacts, we create a personalized connection between you and the ideal recipient of your donation. Or if you have a beneficiary in mind, please feel free to donate to them as well! Every dollar donated to No Kid Hungry or Feeding America can help feed a child/adult 10 meals.
