

SHINE A LITTLE LIGHT

BRIGHTNESS IN A TIME OF UNCERTAINTY

In a new home or unfamiliar environment, nighttime can be incredibly scary and lonely. With a night light, the darkness feels less overwhelming, the shadows a little less daunting.

This program aims to provide a sense of comfort and security to someone who is in a turbulent transition period, in hopes that this small gesture brightens up their days and nights.

Participants in this program receive materials to assemble and create magical night lights to donate to their recipient of choice, whether foster care systems, nursing homes, hospitals or others. This program may also be combined with Sweet Dreams for a discounted price to create a more robust donation.

The materials are packaged such that each participant will create their own night light.

WHAT'S INCLUDED

- Materials to create 1 night light
- Ground shipping to one U.S. location
- Instructions, language for invitations, speaking notes for the host, press release template

Available Add-ons: Inquire for Pricing

- Shipping to individual participants
