

SWEET DREAMS

SENDING HOPE AND INSPIRATION

Hospital rooms can be an unpleasant experience for a young child. Being in an uncomfortable environment, rather than the comfort of their own room, makes it difficult for them to easily adapt. A personalized gift just for them creates a sense of home and inspiration for these children.

This program aims to provide children with colorful and day brightening pillowcases as well as symbolic dreamcatchers to encourage hope and healing.

Dreamcatchers have long been believed to protect young children from nightmares and bad dreams. Native American cultures believe that both good and bad dreams fill the air at night. This program can be combined with Shine a Little Light for a discounted price to create a more robust donation.

The materials are pre-bundled so they can be assembled by individuals or assembly style, whichever suits your self-hosted event best!

WHAT'S INCLUDED

- Materials to create 1 pillowcase and 1 dreamcatcher
- Ground shipping to one U.S. location
- Instructions, language for invitations, speaking notes for the host, press release template

Available Add-ons: Inquire for Pricing
