

BEADS TO BEAT CANCER

GIVING BEAUTY AND COMFORT TO PATIENTS

Cancer cuts through boundaries of gender, race, nationality, and income resulting in over 1.2 million Americans developing cancer each year.

Fortunately, there have been great advances in cancer research, detection and treatment, and the number of cancer survivors is increasing.

This program's goal is to assemble bracelets to donate to local cancer treatment facilities for distribution for patients, each with a special handwritten message of support.

Attendees also assemble an additional bracelet to either wear themselves or share with somebody they know who was impacted by cancer. Each type of cancer has a color associated with it, ie. pink for breast cancer, teal for ovarian cancer. Keep this in mind if you'd like to create specific bracelets.

Materials will be sent pre-bundled so that they can be created by individuals or in an assembly style, whichever suits yourself-hosted event best!

WHAT'S INCLUDED

- Materials to create 1 bracelet and packaging
- Ground shipping to one U.S. location
- Instructions, language for invitation, speaking notes for the host, press release template

Available Add-ons:

- Shipping to individual participants
- Sourcing a local beneficiary
- Customizable gameshow
